("Quemetco") operates a secondary lead smelting facility located at 720 South 7th Avenue, City of Industry, California, 91746. On November 13, 1992, RSR Corporation's Gerald Dumas submitted a request on Quemetco's behalf to then-EPA Region IX Administrator Daniel W. McGovern for a two-year variance from the secondary containment requirements for Quemetco's containment building pursuant to 40 CFR section 264.1101(b)(4) (see first attached letter). On August 2, 1993, then-EPA Region IX Hazardous Waste Management Division Director Jeffrey Zelikson sent a letter to Gerald Dumas granting the two-year variance (see second attachment). In its letter, EPA required Quemetco/RSR to maintain information on file regarding (1) the removal of liquids from the secondary containment system and (2) a plan describing procedures to address releases into the secondary containment system.</p> <p>We are requesting the following records:</p> <p>(1) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to Quemetco's variance from the secondary containment requirements;</p> <p>(2) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the Quemetco containment building's leak detection system; and</p> <p>(3) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the operation of the Quemetco containment building's secondary containment system.</p>
